

FAO The Residents' Committee of 12 Park Quadrant

Re: Proposed filming for Rebus S2, by Eleventh Hour Films, at 12 Park Quadrant

Filming Location: 1/2, 12 Park Quadrant, Glasgow G3 6BS

Production Company: Eleventh Hour Films

Planned Work on Location:

- Prep work: Tuesday 16th & Wednesday 17th June, 0800-1800hrs
- Filming: Thursday 18th, Friday 19th, Saturday 20th June, 0730-1930hrs
- Reinstatement work: Mon 22nd & Tuesday 23rd June, 0800-1800hrs

Our prep and reinstatement work involves light furniture removal and the addition of various props to the interior of the property.

On Site Security:

- For on the ground security, we would station one security guard on the exterior building entrance during the above prep and strike work (16th, 17th, 22nd, and 23rd June). This guard would be stationed outside the building, holding a set of keys as arranged with the owner of our agreed filming property to manage our dressing crew's access to the building during this time.
- During our filming days, we would station three guards between our technical vehicles and the front door during the day, with a similar footprint for overnight security. This is part of insurance cover, as all of our filming activity is covered by our public liability insurance, and to ensure we keep your building safe and secure.
- Our security services are provided by Scottish Location Services. Their teams of experienced security guards are used to working with respect and conscientiousness towards residents and properties across many productions.

Filming in Communal Areas:

For short portions of our filming days, we would like to request permission to film in the following areas:

- Foyer, Communal Elevator, Corridors: we would like to film a scene involving a character visiting, entering the foyer, stepping into the lift, and leaving the lift towards the door of Flat 1/2. We would look to contact the company who manage the building's lift to have an engineer on standby to help call the lift when required for filming. We would be mindful of any weight restrictions within the lift.
- Back terrace: we would like to use the back terrace of the building as a service area for our crew and kit during our filming hours. We would use a couple of pop-up gazebos to provide cover away from our sets while filming inside.

FAO The Residents' Committee of 12 Park Quadrant

Re: Proposed filming for Rebus S2, by Eleventh Hour Films, at 12 Park Quadrant

Access:

- At no time would we look to restrict anyone's access to the building/their property. When we film in communal areas, anyone accessing nearby doorways or properties may be asked if they would be able to pause until our cameras cut before continuing. Takes tend to last 1-2 minutes at a time.
- Emergency access would be maintained at all times.
- Access to the residents' car park beneath the building would be maintained at all times.
- If any residents had deliveries or specific access needs, we would of course work to accommodate these.

Exterior Footprint:

To park our technical vehicles near our filming location and maintain the continuity of our shots, we have applied to Glasgow City Council for parking dispensation on Park Quadrant.

We have also applied for permission from Glasgow City Council to position two cherry pickers on the street to for lighting purposes. These lights would only be in use during our filming hours.

In the coming days, we will distribute letters locally to inform residents of our planned filming and exterior footprint. We will share contact information on these letters and invite anyone to get in touch if they have any concerns.

Donation:

By way of thanks to the residents, we would like to offer a donation of £1500 to the Residents' Association. We are very grateful for the opportunity to film in such a lovely location. Please be assured that our crew will work with respect and courtesy to you and your neighbours.

If you have any questions, please don't hesitate to get in touch. We appreciate the opportunity and your communication on the above and look forward to hearing from you.

Kindest regards,

Ben O'Farrell
